

# **Raport – Test de securitate**

Nume: Security Test

Obiectiv: Sesizarea problemelor si vulnerabilitatilor aplicatiei

Rezultat asteptat: Aplicatia este lipsita de vulnerabilitati in ceea ce priveste securitatea.

Probleme posibile: Netreatarea unor cazuri ce fac aplicatia vulnerabila la Sql Injection, Cross-site Scripting, Command Injection, Command Injection (Blind), Local File Inclusion, Remote File Inclusion, Code Evaluation, Server-Side Template Injection, HTTP Header Injection etc.
